Lancaster Farming

VOL. 15 NO. 43 Lancaster Farming, Saturday, September 19, 1970 $2.00 Per Year

Lampeter Fair Features Farm Displays, Events

The 46th annual West Lampeter Community Fair is scheduled for Wednesday, September 23 to Friday, September 25.

At the strictly educational fair, a wide selection of displays will be featured including livestock, grains, vegetables, fruits, nuts, home and dairy products, domestic arts, and school exhibits.

Exhibits will be received by the various committees on Tuesday, September 22 and on Wednesday, September 23 until 1 p.m.

Judging activities for 4-H & FFA members begin at 7 p.m. on Wednesday with the Baby Beef Show.

At 8 p.m. there should be lots of action with a calf roping demonstration. Following this the calves will be placed in a ring and FFA boys will compete in a calf scramble.

Later four local junior high school girls will show their skills in a pig race.

Thursday will be a particularly busy day at the Lampeter Fair. FFA, 4-H and Adult judging contests are set for Thursday morning. Areas to be judged at that time include beef, sheep, poultry, swine, and dairy.

Judging of dairy cattle will be held at 1 p.m. Competition for the bond prize in this contest is limited to boys and girls of Lancaster County, exhibitors, and dairy breeders. Any County boy or girl 20 years of age and under is eligible to fit and show a dairy animal of any breed for competition in this contest.

The Holstein, Guernsey and Ayrshire Breeders will present pure-bred dairy heifer calves to several County vocational agriculture students on Thursday. The purpose of this annual award is to promote interest in the breeding of pure-bred dairy

(Continued on Page 10)

Lampeter Fair Schedule

Wednesday, Sept. 23

7 p.m. — All Western Horse Show
8 p.m. — FFA Fat Hog Consignment Sale

(See Solanco fair photos and judging results on pages 8 & 9.)

All-American Show Set At Farm Show Building

The Pennsylvania Junior Dairy Show will be held at 9 a.m. Monday (Sept. 21) in conjunction with the All-American Dairy Show at the Farm Show Building, Harrisburg.

All animals that were judged as a "Blue Merit" ribbon at the District Show in August are eligible and already entered in the State Junior Dairy Show. All entries must have been blue ribbon winners at the 1970 4-H and FFA district dairy shows.

Three judging rings will be running at one time and the top three heifers in each class may be entered in the All-American Show later in the week in which outstanding dairy animals from 16 states will be among the 1,541 entries.

A total of 640 entries have been accepted for the Seventeenth Annual Pennsylvania State Black and White Show scheduled at the Farm Show Building Tuesday. The Black and White is a feature attraction of the Pennsylvania All - American Dairy Show week.

Internationally recognized dairy judge, Orton Eby, Heritage Farm, St. George, Ontario Canada, will be placing the classes and selecting champions in both the male and female divisions. Special awards will be presented to all 26 class winners, the four champions, as well as recognition of the Premier Breeder and Premier Exhibitor. The show entries qualified at one of eighteen District Black and White Shows held during July and August across the state where a record high of 2446 Registered Holsteins were exhibited.

The State Holstein Show is certain to be the largest show of its kind in the nation this year, according to William C. Nichol, Secretary of the sponsoring Pennsylvania Holstein Association.

Of 1,541 in the entire All American, Pennsylvania leads with 651 entries. Other states entering animals are Connecticut, Delaware, Indiana, Maryland, Massachusetts, Michigan, New Jersey, New York, North Carolina, Ohio, Rhode Island, Utah, Virginia, West Virginia, and Wisconsin.

(Continued on Page 10)

U.S. Sees 6% Corn Loss

The USDA's latest report on the nation's corn crop shows a six per cent crop loss through August from blight and drought, but predicts the crop will still be the third largest in history.

The report September 11 indicates losses considerably lower than had been feared earlier in the season and Clifford M. Hardin, U.S. Secretary of Agriculture, followed with a statement that there will be plenty of grain in the country following the completion of harvests this fall.

Further federal reports are planned later in the year as the harvest begins to reveal the extent of losses more accurately.

While the national loss was set at six per cent the loss from one region to another, or from farm to farm varies drastically.

All-American Dairy Show Schedule

Monday, Sept. 21
8 a.m. — Invitational Youth Dairy Cattle Judging Contests
9 a.m. — Penna. Junior Dairy Show
7 p.m. — Invitational Brown Swiss Sale

Ephrata Fair Mixes Tent City, Midway

The 52nd Annual Street Fair at Ephrata will be held September 23-26 with a full complement of displays ranging from vegetables, flowers, needle work, art, crafts, canned and baked goods, 4-H and FFA exhibits displayed in store windows and in the exhibit tents on Main Street.

Tents located in the Ephrata Community Park (Tent City) will be the cattle and agricultural center of the fair with displays of cattle, sheep, baby beef, swine, poultry, grain, seed, tobacco and forage. Judging and contests will be conducted in Tent City.

Big attractions will be the world's largest living steer "Big Jack" and a giant Belgian draft horse "Big John" weighing 2,640 pounds. The most modern and latest display of farm machinery, lawn and garden equipment, snowmobiles, mini bikes, and other recreational vehicles can be viewed. Lots of live and lively special demonstrations will be held every evening by dealers and demonstrators.

The Pennsylvania Department of Agricultural will have their mobile exhibit on display to promote agriculture.

On Wednesday the poultry judging will begin at 10 a.m. Those classifications of poultry which will be judged are bantams, large fowl, ducks, geese, pheasants and turkeys.

At 4 p.m. a hog calling contest will be held and everyone is invited to participate. Tent city will buzz again at 4:30 p.m. when the Junior Hog Show begins. Those classifications are Berkshire, Chester White, Duroc, Hampshire and other breeds. Immediately following the hog show will be the Junior Market Lamb Show. Exhibitors are limited to Lancaster County FFA or 4-H members. The classifications are lightweight, individual (under 80 pounds), medium weight (over 80 pounds), lightweight pens (under 80 pounds), medium weight (over 240 pounds).

The highlight of Thursday's judging will be the Baby Beef Show at 7:30 p.m. Any boy or girl who is a member of the FFA or 4-H Baby Beef Club in Lancaster is eligible to compete in the show. The classifications are lightweight Angus, heavyweight Angus, lightweight Shorthorn, heavyweight Shorthorn, lightweight Hereford and heavyweight Hereford. An adult

9 a.m. — Hog Sale
10 a.m. — Tractor Driving Contest (FFA)

Southern Lancaster Co. Citizens Will Discuss Area's Medical Needs

"Can We Meet The Medical Needs Of Southern Lancaster County" will be the topic of a panel discussion at 8:15 p.m. Monday September 28 at Fulton Grange Hall, Oakryn. The public is invited.

Jesse Cutler of Drumore will be moderator. Dr. Henry S. Wentz, Strasburg, assistant director of Community Medical Services, and Dr. Charles W. Barr, Quarryville, chairman of Medical Clinics and chairman of the Department of General Practice Medical Services in Lancaster County, will participate on the panel.

Others taking part will be Dr. F. S. Dyrness, administrator of Quarryville Presbyterian Home; John C. Hoffman, vice-president of the Solanco School Board, representing the Quarryville Lions Club; Lester Warfel, representing the Quarryville Rotary Club; Paul Gasser, vice president and representing the Quarryville Chamber of Commerce, and additional representatives of organizations and service groups will be invited to participate. Miss Janet Jackson of Little Britain will entertain with harp music.

Preceding this annual Booster Night program sponsored by Fulton Grange will be a covered dish supper at 7 p.m. Grange members, Junior Grange members and parents and other invited guests should bring a meat dish, another dish and their own place setting. Rolls, butter and drink will be provided. Junior Grangers must bring their farm pictures for judging and winning pictures will be sent to the State Grange contest.

Burkhart Finishes 6th First in Sportsmanship

Frank Burkhart and his wife have returned to their farm chores after representing Pennsylvania in the National Plowing Contest at Greenville, Ohio, last week.

One of eight entrants in the large plow division, Burkhart placed sixth in plowing and won the Sportsmanship Award.

To decide this award each contestant votes for another in their division whom they feel best represents a sense of fair play, good judgment, good sense, and is a good sport.

Garden Spot YF Slate Corn Silage Meeting

At 7.30 p m Tuesday, Sept 22 the Garden Spot Young Farmers will hold a Silage Meeting in the agriculture classroom of the Garden Spot High School, New Holland.

Topics to be covered will include "When to Harvest," "Storage and Harvesting Tips," and "Use of Preservatives"

With some blighted corn in the area, the proper management of this crop can go a long way in saving the greatest feeding value of the corn

Guest speakers will include representatives from New Holland Division of Sperry Rand, Pioneer Seed Co, and McNess Co

All interested persons are invited Refreshments will follow the meeting

Twin Valley FFA

A regular meeting of the Twin Valley FFA was held Tuesday, September 15 in the vocational agriculture room at Twin Valley High School Fourteen members were present Several new officers were elected

Officers for 1970-71 school year are Fred Mast, president; Frank Stoltzfus vice president; Bob McGowan, secretary, Paul Oldham, treasurer, Richard Kuntz, reporter, Bob Hornberger, sentinal, and Jerry Jackson, chaplain

A committee of three was chosen to set up a large sale this fall The committee consists of Frank Stoltzfus, Paul Oldham, and Bill Ford

Chapter dues were set at 50 cents and it was decided that the chapter treasury would pay state and national dues for all members

The next meeting will be held Tuesday, September 22 in the vocational agriculture classroom.

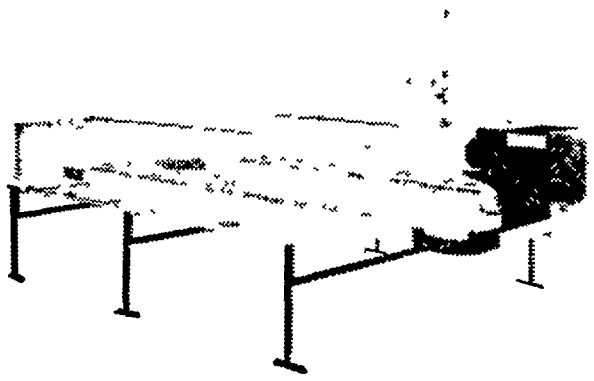
Chapter Reporter

LABOR SAVER

"Systemated" by Big Dutchman®
A DIVISION OF U.S. INDUSTRIES INC.

THE ALL NEW FLAT DECK CHIK-EZE PULLET REARING CAGE



... offers durability, economy, performance and practical labor saving features that increase management efficiency.

The heart of the system is the Big Dutchman chain and trough feeder providing 96 inches of feeding space per cage. There is full availability of all the feed to all the birds All feed is automatically recirculated and remixed, resulting in better feed consumption.

Extra feed capacity makes high density of birds per cage low practical and manageable

FLAT DECK CHIK-EZE FEATURES

- High bird density per square foot of building.
- Easy accessibility for better management.
- Uniform distribution of heat, light and fresh air.
- Fully automated feeding and watering from day old to 20 weeks.
- Better feed conversion; less feed waste.
- Single water adjustment for entire growing period.
- Minimum stress Feed and water easily accessible. Cleaner, healthier birds.

The world's finest systemated equipment is at your Big Dutchman distributor now.

USDA Projects 6% Blight Toll

The USDA last week issued an estimate of a six per cent national loss as a result of the corn blight. It wasn't exactly good news, unless it's considered in the light of some early estimates of 25 to 50 per cent loss.

Our sources locally had projected a five to 10 per cent loss, with the stipulation that it's difficult or impossible to tell for sure. It was noted that additional losses are still possible, even after the grain is stored.

Altogether, it has been and, to a large extent still is, a highly uncertain situation. But our observation and local sources have confirmed from the start that while some individual farmers have been hit rather hard by the blight, the overall loss has not been great in this part of Pennsylvania.

With a little luck and some cooperation from Mother Nature, farmers in the next few weeks will harvest the golden crop and the farmer will have survived another bout with the elements.

Corn—Plug ALL the Losses

Fifteen per cent of Delaware's 15 million-plus bushel corn crop will be left in the field "due to poor machine adjustment or operator carelessness," according to Thomas H Williams, extension agricultural engineer at the University of Delaware.

By following a few simple steps farmers can keep field losses to less than five per cent and add as much as $6 per acre to their profits, Williams says

Think of it!

All this panic about a six per cent loss of the corn crop to blight, while farmers regularly dribble 15 per cent over the fields during harvest.

Doesn't make sense does it?

It doesn't make sense, but farmers ought to do some serious thinking about it during harvest.

For instance, the individual farmer who loses 15 per cent during harvest could more than make up his six per cent corn blight loss by reducing his harvesting loss to the five per cent level.

Stopping Machine Loss

The majority of corn lost to improperly adjusted machines, Williams points out, occurs in the gathering and snapping areas He says the rearward movement of the gathering chains and snapping roll spirals should be about the same as the forward speed of the picker

Snapping roll clearance should be small enough to grip the stalk firmly, but the stalk should not be broken when the ear is removed Too much clearance will increase the shattering, and driving too fast or driving off the row will also increase losses

Williams says studies indicate that the maximum yield is obtained when corn is harvested at 25 per cent moisture content Snapping and gathering losses increase rapidly when the moisture content falls below 20 per cent

A combine operator can tell how his machine is operating by watching the tailings and grain augers If damaged corn and pieces of cob appear the cylinder speed is too fast and the clearance too small The machine is properly adjusted when whole cobs with no kernels attached are coming off the straw walkers

Once the machine has been adjusted, check it in the field for harvesting efficiency. Williams says 1 7 kernels per square foot left in the field represents a one bushel per acre loss And with the corn price outlook very favorable this year, a small loss may soon become very costly

The point for the farmer, of course, is much broader than simply cutting harvesting losses.

Many Other Losses

The point is that farmers are constantly making little mistakes with their corn crop — mistakes which result in losses far exceeding the six per cent currently estimated as the Southern Corn Blight toll.

Drought, even a small drought, takes more than six per cent of the crop.

Planting the rows too close or too thick within the row can cost much more than six per cent Similar losses or worse can also be had from not planting enough seed.

Improper or madequate fertilization can be very costly.

Poor germination from inferior seed can cost much more than six per cent

The production difference between varieties far exceeds six per cent.

Poor weed control can easily cause yield losses of two or three times the six per cent.

Since Lancaster Farming ran an article on August 22 on the corn rootworm, the word has came back from several sources that the corn rootworm probably will cause considerably more corn yield losses in Lancaster County this year than the blight Yet, until recently, many local farmers apparently were not even aware of the rootworm in their fields or of the extensive crop losses it can cause

The Farmer's Control

The farmer must remember that e can exert considerable control over most of these factors which cut into his yields

He can control his plant population the quality of his seed, his weed control and corn rootworm Some farmers have even made considerable progress in forming a partnership with nature through the use of irrigation and other techniques which cut down the severity of adverse weather conditions

Corn blight? That too will be controlled It's a matter of time The only question is whether enough progress can be made in the next few months to achieve control in 1971 or whether it will be 1972 or 1973.

Based on reports we've seen so far, those who are selling out the 1971 corn crop for fear of the blight are probably premature We think chances are good that losses from the blight next year will be less than this year It's something to watch closely in the future

More Good Years

Last year, it was the Yellow Leaf Blight and many farmers got plagued with it again this year But the yellow variety was overshadowed by the new southern strain.

What will it be next year?

We predict next year will be like this year for the corn producers who control, rather than are controlled by, the factors that go into making a high yielding corn crop For most of these conscientious farmers next year should follow this year in being another good year.

For the few who don't make it this year lean years are an occupational hazard, but the good farmers, the successful farmers don't keep repeating their mistakes.

To Apply Lime

Small grain seedings that will go into grass-legume mixtures next season should have the Lime worked into the topsoil this fall In many cases the soil needs lime and to broadcast it on top of the winter grain this winter or next spring is not the best way to apply it Lime needs time to sweeten the soil if the legumes are to start as intended Corn-stalk ground that is to be plowed this fall or winter and then seeded to legumes early next spring should have the lime mixed into the topsoil either before plowing or at the time of plowing Don't expect lime on top of the ground to do the most good

To Beware Of Frosted Crops

Killing frosts may be expected in the next few weeks and some crops need special attention in order to prevent the poisoning of livestock Sorghum or the sorghum-sudan hybrids should not be used after a killing frost unless the crop stands for a week, or unless the crop is made into silage and allowed to ferment for 30 days. New growth from these plants after a killing frost may be too high in prussic acid for using in the fresh condition Careful management is needed. Clover or alfalfa plants should not be grazed by livestock when covered with frost permit the frost to melt and the plants to dry before grazing

To Grow Winter Barley

It appears that we may be facing some problems by growing continuous corn; both the

THE BIBLE SPEAKS

BY LAWRENCE W. ALTHOUSE

"NO GOOD"

Lesson for September 20, 1970

Background Scripture: Genesis 28 through 28 22 46 1-3
Devotional Reading John 1 43 51.

"That boy's just no good!"

That seems to be a favorite line for some adults, doesn't it? It has probably been said millions of times since history began. It has been said of some of the world's most infamous tyrants and villians and others whose names are found in history's "dishonor roll".

Rev. Althouse

People also probably said this of young Jacob. They had plenty of reason for saying it too Jacob was the kind of boy who craftily turned every situation to his advantage, regardless of what he might have to do or to whom he might have to do it For example, using his brother's near starvation, he "conned" him in to surrendering the birthright that belonged to Esau as the first-born.

The supplanter

What kind of brother would do that? The kind of brother Jacob was! He was well-named, for Jacob meant "he supplants," —he takes the place of another. That was Jacob all right.

Nor was this the last time he supplanted his brother Esau. In Genesis 27 we see him once again, stopping at nothing to get what he wants. The "blessing" he wants from his father was more than just some "nice words" from a dying man. The ancients believed that a man's dying words were capable of exercising real power over the events he would foretell. These words were thought so powerful in themselves that they would hold true even if mistakenly bestowed on the wrong son. No wonder we are told: "Now Esau hated Jacob . . ."

Fearing for his life and encouraged by his mother, Jacob began a 350-mile journey back to Haran, the land from which God had called his grandfather Abraham. The trip would be long and treacherous and he was carrying an extra load: a burdened conscience. The neighbors probably said: "Good riddance; that boy's just no good."

A stone for a pillow

We can imagine how weary and foot-sore Jacob must have been as he sank to the ground that night. Quite a turn of events had just taken place. A few days earlier he had been "on top of the world," having gained his brother's birthright and his father's last blessing. Now he was a fugitive: alone, broke, hungry, tired and possibly deeply troubled Last night he had slept in the comfort of his father's house, tonight he had only a stone for a pillow.

Yet, perhaps that is what he needed—a stone pillow for his head. Without that there might have been no dream, and without the dream Jacob might never have become Israel, the father of the Twelve Tribes. That tells us something about life, doesn't it? Sometimes we need a 'stone pillow," an experience of hardship, suffering or pain in order to be able to see the truth.

In his dream, Jacob encountered God—not just any god (for the Canaanites believed there were many), but the God of his grandfather Abraham and his father Isaac Strange as it may seem, he was now to be Jacob's God and Jacob was to father God's chosen people.

The strange choice

Why did God pick Jacob? Didn't he know that the supplanter was "just no good "? We can understand his choice of Abraham, a man of faith, and Isaac, who was an obedient man. But why Jacob?

We can never completely answer such a question Yet we know that when God chooses a man it is not because the man is worthy as he is, but because he has the potentiality to become someone useful to God. God has often made strange choices in people Jesus did the same thing when he chose twelve to be his disciples Yet, by the grace of God these choices have often changed the world.

48 Voted to ASC Committee

Forty-eight Lancaster County men have been elected to posts on the Agricultural Stabilization and Conservation Service community committee in balloting completed Monday.

Three farmers from each of 16 communities were chosen. The nominee who received the most votes in the community became chairman, the one with the second most votes, vice chairman, and the one with the third highest number of votes became a regular member.

The three elected community committeemen will serve as delegates to the county convention to elect one member and two alternates to the county ASC committee and to choose the chairman and vice chairman.

ASC county convention will be held Thursday, Sept 24 at the Farm and Home Center, 1383 Arcadia Road.

Members of the Lancaster County Agricultural Stabilization and Conservation Committee (ASC) are shown early this week counting ballots for the community committee election. From left are: Fred G. Seldomridge, chairman; Mrs. Janet M. Schaefer, clerk; John J. Herr, member, and Frank W. Aument, vice chairman.

Elected to community committees by order of votes received were:

(1) Conoy, West Donegal and Mt. Joy Twp.—Victor F. Dohner, Roger Thome and Robert Brubaker.

(2) East Donegal and West Hempfield Twp. — Donald B. Drager, Lewis E. Bixler and Shelly R. Snellenberger.

(3) Rapho Twp. — Clyde H. Wolgemuth, Jay N. Newcomer and Jay H. Rohrer.

(4) Penn, Warwick and Elizabeth Twp. — Forney F. Longenecker, Paul B. Kline and H. Richard Bomberger.

(5) West Cocalico, East Cocalico, Brecknock and Clay Twp. —Ray P. Bollinger, John J. Edwards and W. D. Stober.

(6) Caernarvon, East Earl and Earl Twp. — Walter C. Martin, Larry P. Weaver and John E. Campbell.

(7) Ephrata, West Earl and Upper Leacock Twp. — Elvin W. Groff, Robert E. Martin and Norman K. Reeser.

(8) Salisbury and Leacock Twp.—Chester R. Eby, Robert M. Mast and Amos D. Hoover.

(9) East Lampeter, West Lampeter and Lancaster Twp. — B. Snavely Garber, Harlan N. Keener and Lester G. Landis.

(10) Manheim and East Hempfield Twp.—Vernon H. Charles, Daniel Rohrer Jr. and Willis A. Kilheffer.

(11) Manor, Conestoga and Pequea Twp.—B. Herbert Wiggins, Carl G. Harnish and John C. Kindig.

(12) Eden, Bart and Sadsbury Twp.—George H. Reinhart, Calvin D. Keene and Kenneth R. Murphy.

3 BIG REASONS TO GO *GLEANER* COMBINE

QUALITY combining now comes in three new sizes . . . *Gleaner* combine Models K, F and G. There's one with the capacity you need, whether you farm a quarter-section or half the county.

The K teams a 78 h.p. engine with a 27-inch cylinder and a 66-bushel grain tank. The F boasts up to 93 h.p. and a 37½-inch cylinder. The Model G is the Giant of any harvest with a big 44-inch cylinder and engine options to 104 h.p.

All three have the exclusive *Gleaner* combine "sure-feed" system and traditional *Gleaner* combine performance and dependability. Plus added power and capacity to meet your growing needs.

When it comes to combines, Going *Gleaner* is Going Great.

Photos and News From Solanco Fair

The champion Holstein at the Solanco Fair this week was this nine-year-old shown here by Mrs. Carol Troop She and her husband, Dr. Carl Troop, Quarryville RD3, bought the animal this year and are keeping it on the farm of Carl's father, Hiram G. Troop. While there are no past records on the winning cow, Dr. Troop says, she is now milking 75 to 80 pounds a day.

A 925 pound heavyweight Hereford named "Red" was grand champion in the Solanco Baby Beef Show Thursday at the Southern Lancaster County Fair

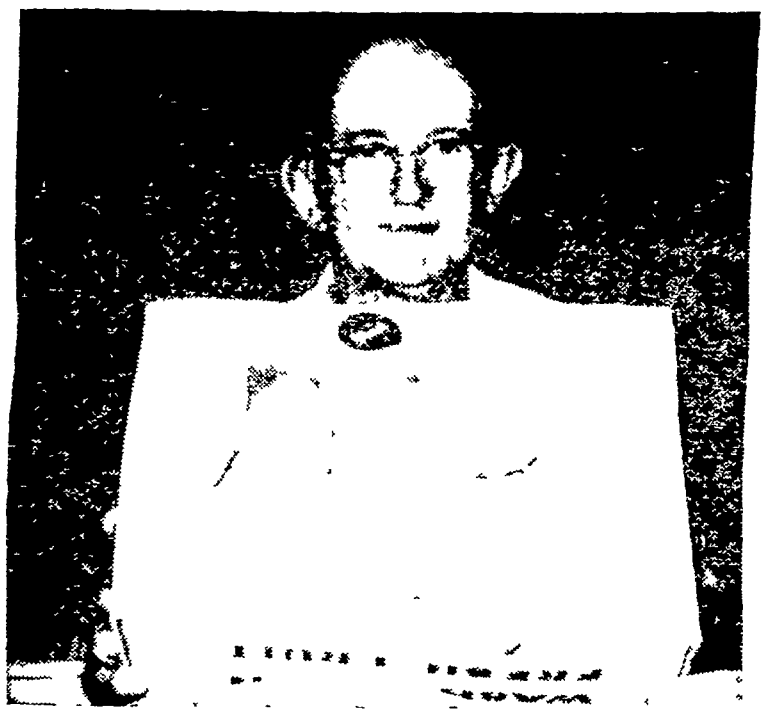
The animal is owned by LeRoy Welk, 17 year old son of Mr and Mrs Ira D. Welk, Quarryville RD3.

The Hereford was named the best FFA steer, before beating out "Blacky", a 925 pound Angus owned by Glenn Weidman, son of Mr and Mrs Frank S. Weidman, Christiana RD1 The Angus was named overall reserve grand champion and was 4 H champion

Other top animals in the FFA division were Kenneth Dearoff, FFA reserve champion and champion Charolais, Ed Weidman champion heavyweight Angus Matt Young, reserve Angus and lightweight champ

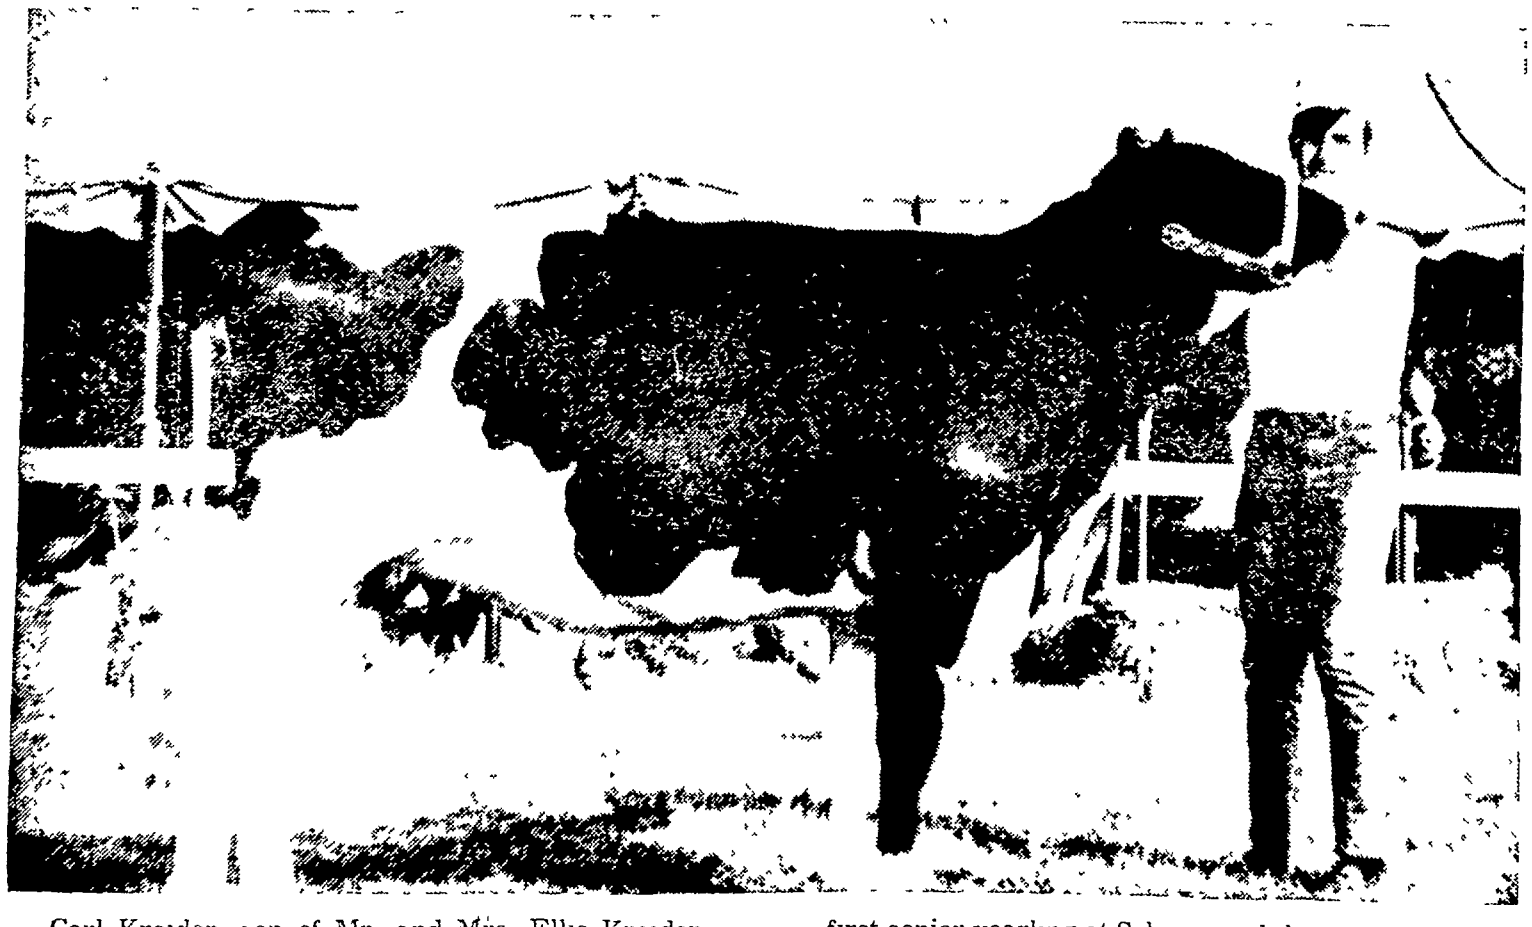
Other top animals in 4-H were Don Dorwart, reserve champion 4-H Angus, and top lightweight Angus; Marilyn Landis, reserve champion 4-H Hereford and top lightweight animal, and John Enck, champion Hereford and top heavyweight

All FFA steers and swine will be sold today; 4-H steers are not sold



Herman Shirk, Quarryville RD1, chairman of the farm crops division of the Solanco Fair, displays the potatoes which received the first place award The potatoes were displayed by Nancy Glison, Fritz Avenue, Quarryville

Glenn Weidman, son of Mr. and Mrs Frank Weidman, Christiana RD1, displays his 4-H champion heavyweight Angus at the Solanco Fair. The animal was also overall reserve grand champion.



Carl Kreider, son of Mr and Mrs Ellis Kreider, Quarryville RD1, was champion showman in the dairy division of the Solanco Fair. His animal was also the first senior yearling at Solanco and the junior champion at the District FFA contest.

In the dairy competition Wednesday, Dr and Mrs Carl Troop, Quarryville RD3, had the champion Holstein, a nine-year-old the Troops bought last year.

had the top Guernsey, a four-year-old, which was shown by Lloyd Welk

Roger Shaub, Quarryville RD1, had the champion Jersey a four-year old

Miller also had the champion Brown Swiss and the top Ayrshire, both five year olds Competition in these categories however, was light

Other dairy winners included Miller had reserve championships in Brown Swiss and Holstein; Kathy Kreider had the reserve Jersey, Warren Schmuck, reserve Ayrshire

Shaub, who had the Jersey champion, also had breed firsts in junior calf senior calf junior yearling and four year old classes. Miss Kreider had the best intermediate calf

In Guernseys, other top winners were Robert Wagner, junior calf; Jon Bitler, intermediate calf; Betty Jo Bitler, senior calf; Ricky Crider, junior yearling; Diane Crider, senior yearling; Debbie Crider, two-year-old; and Robert Wagner, three-year-old

In Holsteins, division winners were Donna Akers, junior calf, Tom Kreider, intermediate calf, Sharon Groff, senior calf Brenda Herr, junior yearling, Carl Krider, senior yearling, Maurice Welk, two-year-old

Swine champion with a pen of two was Clyde Dearolf and Richard Aument, Quarryville RD2, had the best pen of four

Reserve pen of two honors went to Steve Murphy, Peach Bottom, and reserve pen of four was owned by David Bitler, Christiana

Extension Directors Slate Meeting Tuesday

The Board of Directors of the Lancaster County Agricultural and Home Economics Extension Association will meet at 8 p.m Tuesday, September 22 in the Conference Room of the Farm and Home Center

Guest speaker will be Marion R Deppen, assistant director of Extension Service from Pennsylvania State University

He will explain the proposed "Nutrition — Nutrition Aide" program for Lancaster County, this Home Economics program is intended to assist low-income families.

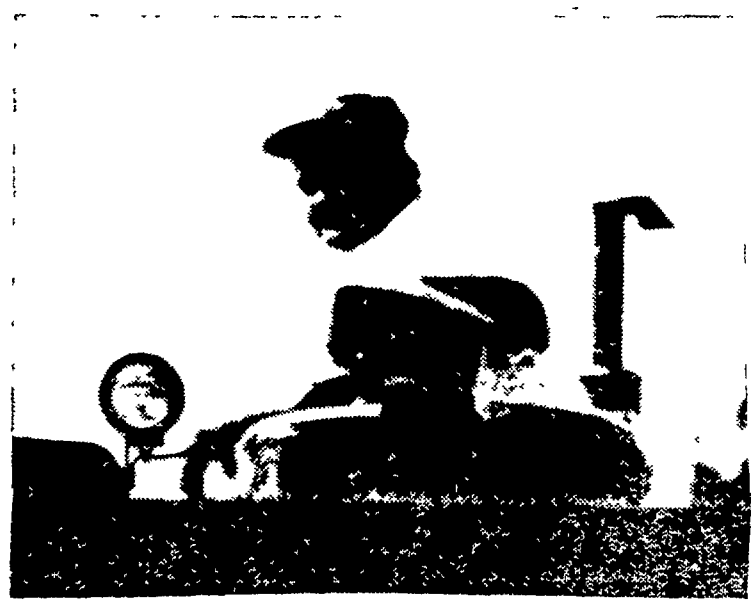
Gordonville, Pa. 17529
Phone 717-768-8796

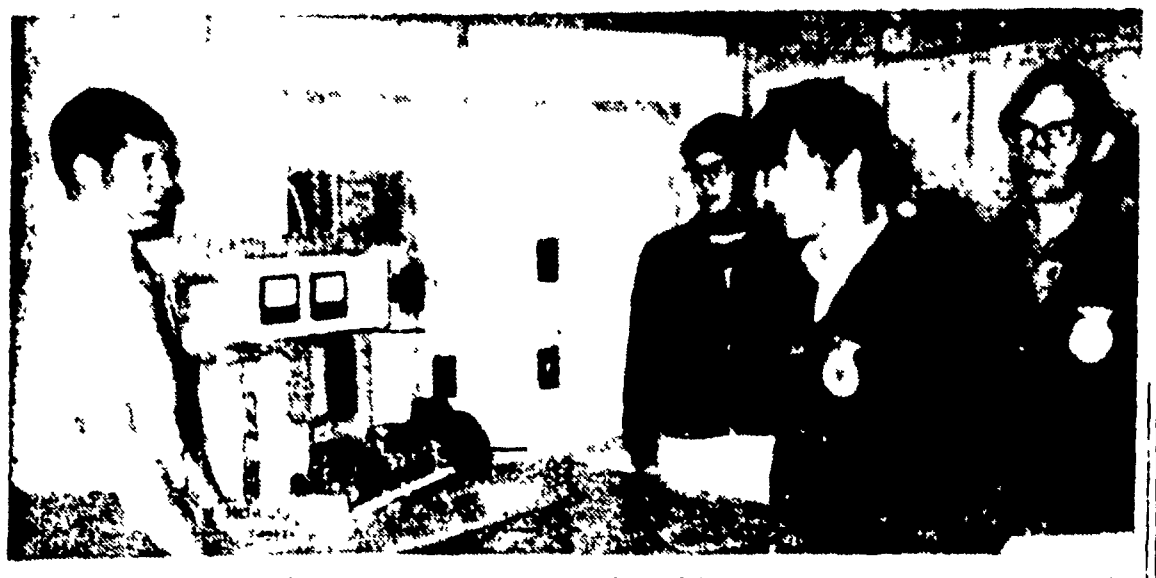
Roger Shaub, Quarryville RD1 (front), shows his champion Jersey at the Solanco Fair. The animal is four years old now and was the All-American three-year-old last year, Shaub said. Meanwhile, Lloyd Welk, Quarryville RD2, shows the champion Guernsey, a four year-old owned by Marvin Miller, Strasburg RD1.



Preston Lefever Jr., 20, Quarryville RD3, was the winner of the adult division of the tractor driving contest at Solanco Fair He does most of the tractor work on his parent's 200-acre cropland farming operation The farm of Mr. and Mrs. Preston Lefever Sr. includes about 42 milking Holsteins and another 20 heifers Scoring on a low-point-wins basis, Lefever had only 65 points compared to his nearest competitor's 150.

First prize in the "neck pumpkin" category at Solanco Fair this week went to Bill Ross (right), son of Mr and Mrs. Howard Ross, Park Avenue, Quarryville Helping young Ross hold the 20-pounder is a friend, Rick Lefever, son of Mr and Mrs. Richard Lefever Church Street, Quarryville Asked how he came to grow such a large specimen, Ross replied, "We threw the seeds out in the garden and they grew."

LeRoy Welk, 17-year-old Solanco FFA members, shows off his grand champion animal at the Solanco Baby Beef Show Thursday. After several minutes of close comparison with the reserve champion Angus, show judge Donald Fowler, Northampton County Associate county agent (right), gave the nod to the heavyweight Hereford because it had "more thickness and depth of the loin." Welk is the son of Mr. and Mrs. Ira D. Welk, Quarryville RD3.



Participating in FFA competition at the Eastern States Exposition at Hartford, Conn late this week are, from left Mark Campbell, Manheim FFA advisor; Clyde Erb, Penn Manor FFA, poultry judging; Dennis Landis, Penn Manor FFA, farm mechanics judging, and Gerald Wolfe, Manheim Central FFA, farm mechanics.

During FFA week at Penn State in July, Wolfe placed first in the state in the Agricultural Electricity contest and Dennis Landis was third in the state in the same contest, giving both boys the opportunity to attend the Eastern States Exposition and further competition.

At Penn State, Erb placed sixth in the state in the poultry judging contest making him eligible to attend the Exposition.

All-American Show Set

(Continued from Page 1)

Breeds and entries are, Ayrshire, 241 animals; Brown Swiss, 174; Guernsey, 138, Holstein, 640; Jersey, 239; and Milking Shorthorn, 109. They will be competing for $54,119 in premimums.

The Pennsylvania All-American, which originated seven years ago, is sponsored by the Pennsylvania Dairy and Allied Industries Association in cooperation with the Pennsylvania Department of Agriculture and the Pennsylvania Farm Show Commission.

One of the features of the 1970 Pennsylvania All-American Dairy Show, which runs through Friday (Sept 25) will be the Invitational Youth Dairy Cattle Judging Contest The judging contest, now in its second year, attracts teams in Collegiate, 4-H and FFA divisions.

Lampeter Fair

(Continued from Page 1)

cattle, to offer to worthy vocational agriculture students an opportunity to start their own herd to stimulate an interest in improved dairy farm practices a love for farm animals, and an active part in a cooperative enterprise

Other activities on Thursday will include a model airplane demonstration the crowning of the Fair Queen and a livestock parade The Queen is chosen from contestants limited to the 10th, 11th and 12th grade girls enrolled at Lampeter-Strasburg High School

On Friday the All-Western Horse Show will include classes for both afternoon and evening in such areas as barrel racing western and children's western western pleasure, keyhole flag race, and others The evening classes will follow the calf roping demonstration

The final activity scheduled is the FFA Fat Hog Consignment Sale at 8 p m The hogs will be sold in groups of two and four, each group consisting of light medium and heavy weight classes The hogs consigned for sale are direct results of practical training in vocational agriculture

Ephrata Fair - Sept. 23-26

(Continued from Page 1)

tractor driving contest will be held Thursday at 6 p m

The Junior Dairy Cattle Show is scheduled for Friday at 7 30 p m followed by the annual cow milking contest On Saturday morning a hog sale will be held at 9 a m and the FFA tractor driving contest will follow at 10 a m

The fair will officially open Wednesday, September 23, at 7 p m with one of the largest and most colorful parades in Eastern Pennsylvania (Rain date—September 24) Participating in the parade will be bands, drum and bugle corps marching units, floats Miss Lancaster County and Mrs Lancaster County Fire Chief contestants The two hour parade annually attracts more than 65 000 spectators

A carnival spirit will prevail throughout the four day event as an estimated 200,000 persons throng the giant midway at the oldest and largest street fair of its kind in Pennsylvania

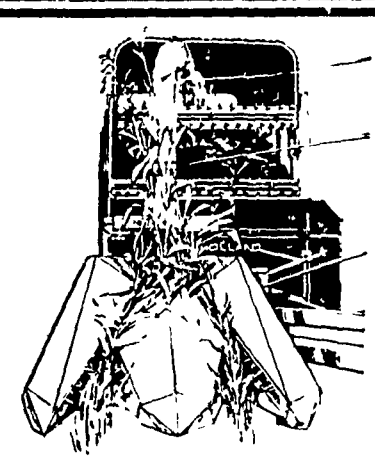
The midway features free entertainment daily which includes 'Kiddies Day on Thursday afternoon at which time school children up to 12 years of age enjoy free rides, as guests of local business and industry, also band concerts political rallies, and the Mrs Lancaster County Fire Chief Contest held on Thursday night

Saturday afternoon will be highlighted with the annual Baby Parade held on Main Street starting at 2 p m with thousands on hand to see the beautifully designed floats and costumes as the small fry parade through downtown Ephrata.

Another highlight of the fair will be held at 8 p m Saturday when young ladies from Lancaster County communities will vie for the title of Miss Lancaster County, a preliminary contest to next year's Miss Pennsylvania Pageant

The fair was inauguarated in 1919, as a homecoming for returned Veterans of World War I

BE READY WHEN THE CORN IS



Now's a good time to reserve one of our New Holland forage harvesters for a demonstration in your corn crop. You'll see triple performance: uniform cut, big capacity, operating economy. Don't wait. Your corn won't.

Introducing . . . The B-305

Q: Is there any relationship between the now "World Famous" Babcock B-300 and the new B-305?

A: Yes, a very close relationship. Let's say, for sake of example, that four inbred lines called A, B, C and D are used to produce the B-300 We mate A and B together to get the female parent of both the B-300 and B-305. To produce the B-305, we then replace line C with line L on the male parent side. We, therefore, end up with 75% of the same make-up for the B-305 as the B-300.

Harter Named to Penn State Staff in Southeastern Pa.

Donald A. Harter has been named to the Pennsylvania State University Cooperative Extension Service staff as area resource development agent in five southeastern Pennsylvania counties.

Thomas H. Patton, Extension Service director, who announced the appointment, said Harter will work with county agricultural agents and Extension home economists in developing and conducting resource development programs He will serve in the counties of Berks, Chester, Dauphin, Lancaster, and Lebanon.

The new area agent's headquarters are in the Lebanon County Cooperative Extension Service Office, 400 S Eighth St, Lebanon

A native of Slatington, Harter earned his bachelor of science degree from Penn State, majoring in agricultural education He received his master of education degree from the University of Massachusetts and doctor of philosophy degree from the University of Wisconsin His graduate work centered in the areas of adult education and Extension administration

Prior to being named to the Penn State staff he was employed by the State University of New York in Albany, N Y. He also served two years as an officer in the U. S. Air Force

Harter is a member of Alpha Kappa Lambda, social fraternity, and Alpha Tau Alpha, scholastic honorary fraternity in agricultural education

He is married to the former Doris H Schmidt of Ridgewood, N J They are the parents of one daughter.

Orval Bass, Lancaster County district conservationist (right), welcomes Frank Lucas, new soil conservationist, who will be assisting Bass.

Lucas, 31, who recently moved to Rothsville, had been stationed in Meadville. He also worked for a time in New Mexico.

He received his BS degree in agronomy in 1962 from Oklahoma State University, Stillwater, Okla.

He is married with one daughter.

Hardin, Ertl Give Joint Statement

The following joint statement was issued recently by U. S. Secretary of Agriculture Clifford M. Hardin and Minister of Food, Agriculture and Forestry Josef Ertl of the Federal Republic of Germany:

Among the highlights of the visit to the United States of Minister Ertl were two half-days of highly useful discussions with Secretary Hardin

Both officials expressed their pleasure at the opportunity this afforded for a fruitful exchange of views on subjects of common interests to the two countries

(Editor's Note During his visit to the U S, West German Agriculture Minister Ertl spent a full day in Lancaster County on September 9 discussing various aspects of agriculture in depth with leading local farmers)

The discussions between Minister Ertl and Secretary Hardin ranged over a wide field, including subjects related to agriculture's development, economic growth and the adjustment problems that accompany rapid change in farm technology The subject given the most emphasis, however, concerned the problems associated with trade between the United States and the European Community, and especially the Federal Republic of Germany

Minister Ertl, on his part, expressed his concern about certain protectionist tendencies in the United States, noting particularly the protectionist aspect of trade legislation now pending in Congress He expressed fear that this development might give rise to a similar reaction in Europe.

Secretary Hardin for his part indicated that a major concern of the United States Government was the high level of agricultural prices in the European Community and made clear the U S position that a reduction in grain prices was necessary

Both officials agreed that liberal trade policies are in the best interest of all countries in the long run Both also considered it desirable that exchanges of information at the expert level should be held regularly in the future

Some members of the Pennsylvania Egg Marketing Association admire a paste-up from egg cartons. This particular one is a horse and buggy, but officials say the artistic possibilities, using the egg carton as a base, are unlimited. Promotion of such egg art is considered by the egg men as having excellent potential for promoting eggs. Left to right are: Leonard J. Janofsky, Eastern division manager of Olson Bros. of Pa Inc, Philadelphia, Sam Berenson, general manager and vice president of Chick Sales Egg Farms, Hanover; Earl Hess, president of Hess Bros. Farms Inc, Ephrata, and Frank Troester, vice president and general manager of SommerMaid Creamery, Doylestown Troester is president of the Egg Marketing Association

Marketers Explore Brand Eggs

The Pennsylvania Egg Marketing Association has taken the first step toward a brand egg program

At a meeting of the Association late last week near Lancaster, President Frank Troester said he hopes to get several committees organized within the next week or two to explore various aspects of a brand egg program

As explained at the meeting, a brand egg program would involve cooperation of many egg producers to market their eggs under a common brand name Among other things, such a program would enable large scale promotion of the brand name, create a demand by consumers for the brand name eggs and hopefully enable the producers to capitalize on the brand name by obtaining a premium price for the eggs In large part, the effort would be geared to insuring a top quality product and obtaining a top price for this product, it was indicated

The Association has been making a preliminary study of the brand program for several months Earl Hess, president of Hess Bros Farms Inc of Ephrata, reported on progress of the program so far

Tom Smith of Cloisterdale Farms, Ephrata, said the brand program "ought to receive the top priority" of the egg marketers He said the program is "the most important thing" the organization can do

In his discussion, Hess outlined six committees that have been proposed to help implement the brand egg program The committees stem from previous discussions and meetings

Marek's Vaccine

In other discussion, Homer Bicksler, executive director of the Pennsylvania Poultry Federation, reported that "sizable quantities" of Marek's vaccine should be available in Pennsylvania by January

A firm to produce the vaccine for sale within Pennsylvania is now being set up in the State College area The vaccine produced by the firm will be for sale only within Pennsylvania

Similar intra-state firms reportedly already are producing the vaccine in other states

Interstate production awaits approval by the USDA

Undercutting Illegal

Sam Berenson, general manager and vice president of Chick Sales Egg Farms, Hanover, called the attention of the organization to state law, PL900 adopted in August 1941, declaring illegal the sale of items at lower than the cost

The law applies to both wholesaler and retailer It defines cost and outlines penalties It also explains that selling items at lower than the cost represents unfair competition and results in economic disruptions and ultimately increases costs for the consumer

Berenson explained that the egg industry should be concerned about such practices because "we don't have too much room to go back" in price He also said the produce. is the first to get hurt in such unfair price cutting situations

He said a similar law exists in Maryland and Virginia and said producers ought to use it to stop egg price undercutting in Pennsylvania

PP&L Reddy Lite
for
Dusk-to-Dawn Safety, Security, Convenience

$4.20
only a month*

including fixture, installation, electricity and full maintenance

Let PP&L's Reddy Lite Service provide your home, farm, business or industry with extra protection and safety outdoors after dark. Reddy Lites can mean safer parking areas, safer nighttime working conditions, better visibility for farm chores, more yard enjoyment. And they'll discourage prowlers, vandals and pesky animals.

The deluxe white mercury vapor lamp, equivalent to the light output of 405 watts of incandescent lighting, will brighten an area approximately 100 feet in diameter. When an installation is made under normal conditions* your cost for fixture, installation, maintenance, bulb replacement and electricity is only $4.20 per month plus applicable Pa. State Sales Tax and tax surcharge.

The lamp is mounted approximately 25 feet above ground on a PP&L pole, or on the customer's own pole or structure, if, upon examination, they prove sound and satisfactory.

Let us tell you more about Reddy Lites. Call PP&L today or complete and mail the coupon below for a free survey of your outdoor lighting needs.

Here are some excellent locations for Reddy Lite services . .

PENNSYLVANIA POWER & LIGHT COMPANY

Marketers Explore Eggs

(Continued from Page 17)

celebration in Lancaster and at the Dutch Days in Hershey, the following results were reported at least 36 newspapers, including some of the large national dailies, carried articles, 31 inquiries about the Omelet King were received at the Hilton Inn, the Pennsylvania Poultry Federation received 27 written requests for information, the Hilton has made a preliminary request for a follow-up omelet seminar to train the firm's chefs.

In addition, Bicksler said several dozen home economists for schools and private firms were involved and many were enthusiastic about the program.

He said one home economist told him she had just bought a heavy skillet and intends to put on her own demonstrations.

Noting that home economists are one of the most influential groups in the country in determining diet, Bicksler termed this interest by the home economists "a real breakthrough for the egg industry."

National Standards

An attempt by the USDA to develop nationwide egg standards was also discussed. It was reported that New York, New Jersey and Pennsylvania are major holdouts in adopting the national standards. But New Jersey appears to be yielding.

E. J. Lawless of the Pennsylvania bureau of marketing explained that Pennsylvania is unique in determining egg standards. In Pennsylvania, the standards are determined by the majority opinion in the egg industry, not by the state. He also noted that state and university officials feel the Pennsylvania standards would be lowered if the national standards are adopted.

Daily Food Guide

With children going back to school, mothers need to check out the eating habits of their children to be sure they are well nourished Getting all the right kinds of food is important all year 'round, of course, but meals may be more flexible in the summer time

That sound nutrition is a cog in mental and physical growth and development is strongly indicated by research However, not everyone needs to study all the research to know what foods children need for good health

Parents who use the "Daily Food Guide" in choosing foods can be sure they serve their children what they need This guide provides for the foods that contain the key nutrients needed for growth and repair of the body.

Studies show that many children are poorly nourished and thus perform poorly at play and in school. Students who have an adequate breakfast also do better in mental and physical activities than those who eat a poor breakfast or none at all

"The Daily Food Guide" is a very helpful leaflet for those who plan the meals for the family. A copy of the leaflet is free upon request from the Extension home economist.

Send a post card with your name and address to Miss June Wilke, Cooperative Extension Service, 402 North Wing Courthouse, West Chester, Pa 19380. Ask for "Food for Fitness A Daily Food Guide"

Variety With Nuts

A new US Department of Agriculture bulletin, designed for the homemaker who likes variety in meals, tells how to use a food that is both tasty and nutritious

Nuts which double as a cooking ingredient and as a garnish snack, or appetizer, contribute rich flavor and crunchy texture to many combinations

Home economists in USDA's Agricultural Research Service who prepared the new bulletin and developed the recipes, say nuts can be used as an added source of protein and food energy in the diet Most common nuts contain about 10 to 25 per cent protein and between 45 and 70 per cent fat

"Nuts in Family Meals. A Guide for Consumers" tells how nuts are marketed, their cost, the forms to buy, and how to distinguish good quality There is information on storing and preparing the nuts for use.

The latest in USDA's "family meals" series gives a wide variety of recipes for main dishes, salads, soups, breads, desserts, sauces, and other nut favorites. There are also serving suggestions along with ideas for transforming familiar recipes into "company fare" All recipes give the number of calories for a specified amount of food and in some cases a variation having a lower calorie value is included

Copies of "Nuts in Family Meals: A Guide for Consumers" (Home and Garden Bulletin No. 176) are for sale by the Superintendent of Documents, U S. Government Printing Office, Washington, D C 20402, at 10 cents each.

New Zealand Firsts

New Zealand was the first country to allow women to vote, to provide old-age pensions and social security for everyone, and to compel management and workers to submit their disputes to arbitration.

U.S. Seed Corn Firms Discuss 1971 Labels

Top officials of the nation's seed industry, representing firms that produce over 95 per cent of the nation's seed corn supplies, met recently to discuss seed corn labeling for 1971.

John I Sutherland, executive vice president of the American Seed Trade Association, said at the conclusion of the meeting "The Association recommends all members label seed corn for 1971 with the per cent of Texas male sterile cytoplasm contained in seed supplies Approval of this recommendation will be requested from the U.S Department of Agriculture and state departments of agriculture"

The seedsmen, meeting in Arlington Heights, Illinois, reviewed the outbreak of the new T-strain of Southern corn leaf blight which is found in varying degrees throughout much of the corn growing areas

ASTA officials felt that individual company members would fulfill to the utmost extent the obligation of informing the farmer-consumer through a system of labeling which will provide information relative to the kind of cytoplasm contained in the seed for 1971 planting.

The meeting did not deal with the seed supply situation for 1971 since it is recognized that, as of this date, a proper appraisal could not be made since harvesting of the seed crop has just started. The seed industry, however, is currently cooperating with the USDA through a survey to determine the adequacy of seed supplies.

Labeling of F2 or second generation seed was reviewed since reports from some areas of the country indicate a limited amount of this seed is being harvested for possible use next year. Concern was expressed by some seed companies that farmers will experience a loss in grain yields from planting F2 seed.

Lewis Camp, research director for P-A-G, Aurora, Illinois, said at the conclusion of the meeting: "Farmers can expect to experience a reduction of 15 to 30 per cent in yields when planting F2 seed."

Dr. Harold Loden, director of research, ACCO Seed, Belmond, Iowa, said at the conclusion of the meeting: "The reduction in grain yields, when planting F2 seed, is related to the specific makeup of the hybrid from which it is harvested. Generally speaking, the second generation of a single cross will yield less than the second generation of a four-way cross."

The objective of uniform labeling of seed corn throughout the United States, both interstate and intrastate, is to adequately and properly inform the customer regarding the type of seed available for 1971

Greenhouse Vegetable Conference Set in Sept.

Speakers from Penn State, Rutgers, Cornell, Ohio State, Arizona, Texas A & M, and West Virginia Universities will be featured at the first North American Greenhouse Vegetable Conference in Pittsburgh from September 29 through October 1, 1970.

Two speakers from Europe also will participate in the meeting. The speakers are from England and Holland. Both countries are among the leaders in greenhouse vegetable production in Europe

A special tour will be taken on September 29 to Grafton, West Virginia to visit the newest greenhouse vegetable complex in North America — 11 acres under glass

Copies of the program and registration forms are available from the Agricultural Conference Coordinator 410 J O. Keller Conference Center, The Pennsylvania State University, University Park, Pa. 16802.

Bedding Plant Meetings

Bedding plant growers should note the dates of October 5 6, 7 1970 for the National Bedding Plant Conference. The meetings will be held at Michigan State University, East Lansing, Michigan.

Complete details and the program can be obtained from D . William H Carlson, Department of Horticulture, Michigan State University, East Lansing, Michigan 48823.

Topics to be discussed range from varieties, marketing, germination and air pollution to mechanization.

Plant Perennials

September is a good time to plan and plant many perennials, suggest extension specialists at The Pennsylvania State University. This includes iris, peonies, daylilies, hardy bulbs phlox and many others If possible, it may be a good idea to buy plants locally or from very nearby mail order firms, since these plants will have less adjusting to do before winter

Try A Classified — It Pays

For good production next lactation,

FEED PURINA DAIRY CONDITIONER

As a dairyman, you know that good milk production doesn't just happen It's something you plan for by establishing a herd with the genetic potential for good production, then managing and feeding your cows so they'll produce up to their bred-in ability.

Many successful local dairymen also plan for good production with a proven program of dry cow feeding. They need Purina Dairy Conditioner, a research-proven ration to help give dry cows body condition they need for good production after they freshen.

Purina Dairy Conditioner is an extra-palatable 12½ percent protein ration. It's fortified with vitamins A and D plus extra phosphorus to help guard against milk fever.

Purina Dairy Conditioner is low-cost, too, because the amounts you feed depend on your cows' condition and on the quality of the roughages you feed For example, a cow dried off in good condition being fed high-quality roughages would require less Dairy Conditioner than a cow in only fair condition being fed fair quality roughages.

Drop in soon and get your free copy of the Purina Dry Cow Program folder. We'll be glad to show you how Purina Dairy Conditioner can help you prepare your dry cows for good production next lactation.

EXCLUSIVE SPEEDY ROOF RAFTERS MAKE *SPEEDY* CORN CRIBS

Twice as Fast *Twice as easy to erect*

Speedy roof rafters guarantee easy, proper placement of roof panels the first time. Rafters add great strength to the roof. Panels need only to be bolted together in three places. It's another big time saving feature you get only in Speedy Bar-Lok corn cribs.

Stands up best—lasts longer
Wire mesh panels are 5-gauge wire — thick as a ¼" bolt! No bulge or sag. Sturdy 26-gauge galvanized roof is securely anchored to 9 steel roof rafters and side panels. Can't blow off!

Come in today and see the Speedy Bar-Lok corn crib. Let us prove to you that Speedy is twice as fast — twice as easy to erect. Let us show you all the other features that make Speedy Bar-Lok your best corn crib buy.

USDA Certifies Six Pa. Meat Packing Plants

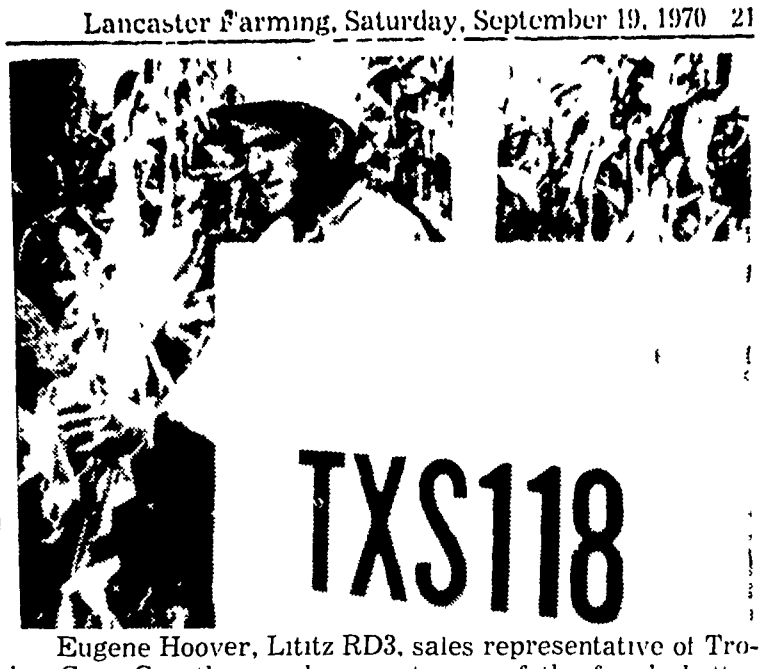
Six Pennsylvania meat packing plants have been certified by the U S Department of Agriculture as having established meat inspection service "at least equal to federal standards."

All are under Pennsylvania's new meat inspection program. State Agriculture Secretary Leland H Bull said

"This is the first group of meat plants in Pennsylvania to attain this certification as a result of surveys made by USDA," he explained "We expect more will be certified shortly and that eventually all eligible plants will qualify."

Two years ago Pennsylvania's meat inspection plans were approved by USDA as "at least equal to federal standards" — a requirement for eligibility to participate in a cooperative federal state inspection program

The plants are. Hazle Park Packing, Hazle Park; Kessler's Inc, Lemoyne, Knupp Brothers, Harrisburg RD3; Peters Brothers, Lenhartsville; Pudliner's Home Dressed Meats, Johnstown, and Smith Provision Co, Inc Erie



Eugene Hoover, Lititz RD3, sales representative of Trojan Corn Co., this week inspects one of the firm's better varieties on a joint corn plot with Organic Plant Food Co. along Route 722 one-half mile south of Lancaster Airport.

A field day to show off this and 16 other Trojan corn numbers, including some high lysine numbers, was held at 1 p.m Friday at the plot.

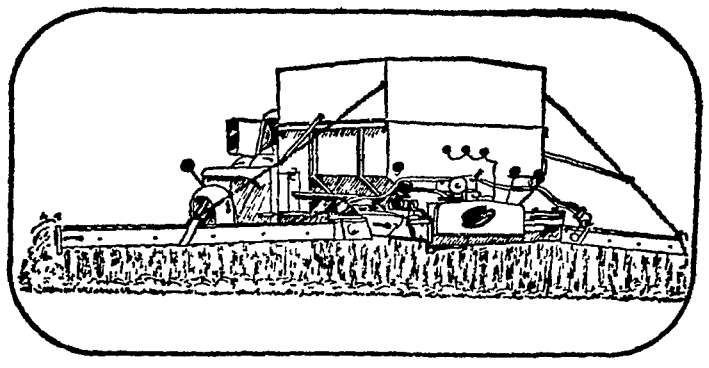
Apply Lime In The Fall For A Better Crop Next Summer



Fall liming assures proper limestone distribution in the soil, ready for spring planting. The freezing and thawing of winter aid in the process of limestone dissemination. So, why wait, correct your soil deficiency now by liming, and reap a bigger harvest next summer.

Works for Successful Farm Fair

Mrs. Hoober Active in New Holland

By Mrs. Charles McSparran
Farm Feature Writer

One of Lancaster County's oldest community fairs and one that attracts thousands of people every year is the New Holland Farmer's Fair The 39th annual fair will be held September 30, Oct 1 2 and 3 this year

It is run by a group of volunteer business men with Rufus Good as president and many other community organizations and individuals contribute very materially to its success Dr Wilson A Faust, having worked with the fair many years, is an honorary member of the board of directors

The large street parade, which is attended by 30,000 to 40,000 people, will be held Wednesday evening, September 30 It is conducted by the Young Men's Business League with William Bingaman chairman Different organizations sponsor bands The official opening will be at 7 p m that evening

The Pet Parade directed by the Cub Scouts will be held at 7 30 p m, Friday, Oct 2 Prizes are furnished by Hersheys Shoe Store

One of the outstanding events which draws about 20,000 people is the Baby Parade It will be held at 4 p m Saturday, Oct 3 The Business and Professional Women conduct it and one of the nice things about it is that each child gets a gift All gifts and prizes are furnished by New Holland Farmers National Bank The various entries are said to be fabulous

There will be a Tug-of-War elimination each evening (except Wed) at 9 p m participated in by members of the area Fire Companies Finals will be Saturday evening A trophy and monetary gifts are presented to winners

A unique feature of this fair is the bake sale after noon Wednesday Each year an organization conducts the sale after the products are judged This year the Garden Spot 4-H Club will be the beneficiary Crowds look forward to buying prize winning entries This also eliminates food spoilage which would occur before the end of the fair A sample of each one is displayed in store windows as is the canned goods

Livestock is exhibited in a tent Last year it was on Railroad Avenue The 4-H Baby Beef Show attracts many people After being judged, the animals will be sold at 1 p m Thursday at the New Holland Sales Stable 4-H Community Club pigs will be judged Thursday and sold at 2 p m Friday, under the direction of Arnold Lueck from the Lancaster County Extension Service

This fair is strictly an agricultural fair, without the midway attractions which are part of some similar fairs It is largely a street fair Main Street is closed between Custer Avenue and Brimmer Avenue Richard Geist is in charge of concession space along the curbs

Mrs. Roy W. Hoober of New Holland displays a beautiful reversible orange, yellow and white on green daisy afghan which her daughter just completed and will exhibit at the New Holland Farmer's Fair.

Some of the different refreshment stands include the local Fire Company Lions Club has hot ham sandwiches A class from St Stephen United Church of Christ has a beef barbecue and the Leola Memorial Association has platters in a special building for food

The flower show will be in the Boy Scout Home on South Roberts Avenue Store windows display many fine exhibits and the Elementary School auditorium has a number of exhibits such as jelly, sewing and fancy work

One who has worked very diligently for 10 years or more with this fair is Mrs Roy W Hoober of 350 State Street, New Holland She is chairman of the committee of about 10 who are in charge of fancy work and sewing They will be on hand from 2 p m to 9 p m, Tuesday, September 29 and from 8 a m Wednesday throughout the fair They will have all kinds of handmade articles such as quilts, rugs, embroidered, crocheted and knitted articles and sewing They will have separate entries for 4-H Last year they had 375 entries in this department and are anticipating more this year

Mrs Hoober's community service does not end with the fair She has been organizational leader of the Garden Spot 4 H Sewing Club for five years and has worked with the club nine years She is serving a two-year term on the County 4-H Leaders Council They have 60 girls in the sewing club and 13 adult workers and they meet in Garden Spot High School 250 people attended their fashion show this summer which was conducted by teen leaders

Mrs Hoober (Eleanor) works with free lance (tailoring), having many girls coming to her home for assistance She is well qualified for this work as she has always sewed and took courses in Extension sewing She took tailoring courses four times Some of her own clothes are evidence of her expert tailoring ability She has made evening gowns for friends and has helped more people solve sewing difficulties.

Mrs Hoober works with the Senior Citizens Club of New Holland which meets in Liberty Fire Hall This was an outgrowth of the Priscilla Class of the St Stephen United Church of Christ and was organized 10 years ago Mrs. Howard Barr is chairman. About 80 to 120 attend their meetings which are held the first Wednesday of the month They have speakers and discussions at their meetings. Twice a year they take trips One hundred will take a trip to Washington, D C next month. They have taken trips to Hershey, Lititz, Sterling Forest Gardens, N. Y, Annapolis, Md., Longwood Gardens, Harpers Ferry and to the coal regions. One meeting a year they have games and they have exchange meetings with other clubs.

Eleanor came from Lock Haven, Pa. and is a registered nurse, having graduated from Hahnemann Hospital in Philadelphia where she specialized in orthopedics and pediatrics. She is also a post graduate of Children's Hospital in Philadelphia. She supervised at Shreiners Hospital for Crippled Children, Roosevelt Blvd, Philadelphia for five years after graduation and since marriage has done some volunteer work.

Hoobers are members of Saint

(Continued on Page 23)

Mrs. Hoober Active

(Continued from Page 22)

Stephen United Church of Christ, New Holland where Mr Hoober was a deacon and elder and she used to teach in the Sunday School and was in charge of the Cradle Roll Department for many years Everyone belongs to Lay Life and Work and committees do the work They are having Homecoming this month. Mrs Hoober is one of the organizers for wedding receptions at the church

Mr. Hoober was born on a farm in East Earl Township and has worked 25 years for the New Holland Division of Sperry Rand Corporation He is distributional manager. He served 18 years on the school board

Hoobers' son Thomas graduated from Garden Spot High School and graduated this month from Pennsylvania State University where he specialized in Food Service and Housing Administration. He is married to Bernadette Mickey of Pittsburgh who was an English major, graduating from Penn State.

Their daughter Nancy took the academic and home economics courses at Garden Spot High School She is pianist and organist and received an organ award at high school She just completed 10 years in 4 H work She is a sophomore at Simmons College, Boston, Mass., taking home economics.

Mrs Hoober belongs to several womens bridge clubs and she and her husband belong to bridge and pinochle clubs She plays duplicate bridge with New Holland Sperry Rand, Armstrong Cork Co and Mt Gretna clubs.

Hoobers like to travel and have taken trips to Bermuda, Nova Scotia, New Orleans and to many of the western states, seeing many of our national parks.

Eleanor also belongs to a nine member craft club which meets once a month They make all kinds of things such as ceramics, weaving, artificial flowers, pine cone wreaths and topiary trees, to mention a few.

Mrs. Hoober says she hopes her husband will find something to do to entertain himself when he retires but, as for herself, she is certain retirement will be no problem as she has so many interests

She says, "I love to do things with my hands, I always have something in the making As soon as I get one thing finished, I start another I sew, I knit, crochet, am an amateur photographer, I like to read and I like to cook" Some of her favorite recipes are

SHRIMP DIP OR SANDWICH SPREAD

3 oz. cream cheese, softened
2 tablespoons salad dressing or mayonnaise
1 tablespoon catsup
1 teaspoon prepared mustard
Dash garlic powder
1—4½ oz. can shrimp (can use broken)
1 teaspoon finely chopped onion
¼ cup finely chopped celery (optional)

Blend cheese with salad dressing, mix in catsup, mustard and garlic powder Blend in shrimp, celery and onion Makes 1 cup filling.

Floating Fruit

Fruit may float in home canned products because pack is too loose or syrup is too heavy, or because some air remains in the tissues of the fruit after heating and processing

THOMAS

Selecting A Dishwasher

Buy brand name appliances and equipment A reputable manufacturer is concerned about the design, construction and servicing of his products

Check the warranty or guarantee coverage that allows recourse should the appliance prove faulty

Buy from a reliable dealer with competent installation personnel and available service for normal upkeep and repairs.

Read descriptive literature before buying And be sure to read the instruction booklet before using the appliance

Buy only appliances that meet national standards for safety Look for the Underwriters Laboratory (UL) approval seal

Consider which style dishwasher best suits your needs Your choices include: portable, convertible and built-ins

An average size dishwasher has room for 14 place settings, but the capacity varies from model to model

Performance options include: pre-rinse, single wash, double wash, plate warming, pots and pans, and fine china, booster heating element, small disposal unit to grind waste, quite operation, automatic detergent dispenser, compartmented silver basket, movable racks.

Advantages Of A Dishwasher

Electric dishwashers save time Dishwashing is the most repeated task in the kitchen Studies show that homemakers average 73 minutes a day on dishwashing activities done by hand, including clean-up With a dishwasher, the average is only 35 minutes

Water too hot for your hands, proper detergents, and hot-air drying are all sanitizing factors contributing to more sanitary

(Continued on Page 27)

Start raising more and better Calves

the Easy NURS-ETTE way

No more carrying pails of warm water or hand mixing milk replacer. Just fill the hopper of the NURS-ETTE with milk replacer and the NURS-ETTE will mix milk replacer and warm water and keep it warm until calf nurses the mix (approx. 14 oz.)

Then it will mix a fresh batch of water and replacer.

WHITE BUTTER BREAD
(Baked in coffee cans)

Dissolve 1 pkg. of yeast in
½ cup warm water
⅛ teaspoon ginger
1 tablespoon sugar

Let set for 15 minutes. Add
2 tablespoons sugar
1 can evaporated milk (13 oz.)
1 teaspoon salt
2 tablespoons salad oil
4 to 4½ cups unsifted all-purpose flour

Add 1 cup at a time (electric beater) Beat thoroughly after each addition Last cup will have to be beaten by hand (Beating adds texture)

Put in well-greased (butter) cans Place lids on tops, let rise till lids "pop off" Bake in preheated oven, 350 degrees, for 45 minutes or until it sounds hollow when tapped on top Remove from oven, brush with butter Let stand 5 to 10 minutes in can Remove from can, let cool thoroughly on rack Dough can be frozen in cans

RUM ROLLS
⅓ cup milk
¼ cup shortening
1 teaspoon salt
½ cup sugar
1 pkg. yeast
1 egg
½ teaspoon rum extract
3½ cup sifted flour (all-purpose western flour)
2 tablespoons melted butter
¼ cup seeded raisins, cut

Pour scalded milk over ¼ cup sugar, shortening and salt Cool to 110 degrees or luke warm Dissolve yeast in ¼ cup luke warm water and add. Beat until smooth. Add beaten egg and rum extract Add ½ of the flour and beat until smooth Add remaining flour and mix well Cover and let rise in warm, place until double in size (about 3 hours). Roll into 2 strips — each 12" long, ½" thick and 4" wide. Brush with melted butter and sprinkle with sugar and raisins Roll up Cut rolls in crosswise slices about ¾" thick. Place in greased pans (muffin or round or square pan) and let rise until double in bulk. Bake at 350 degrees 15 to 20 minutes As soon as rolls are removed ice with icing made of 1 cup powdered sugar, 2 tablespoons hot water and 1 teaspoon rum extract. Makes 24 to 30 rolls

Neighbors Help Raise Kettering Barn

Clarence Rosenberger, pastor of the East Petersburg Church of the Brethren to which the Ketterings belong, and his daughter Nancy, who just returned August 28 from Nigeria where she taught three years in the Nigeria Waka schools, were among those who participated in the Kettering barn raising this week. In the background busily nailing boards are only a few of the 80 or more neighbors helping replace the barn which burned about seven weeks ago.

About 80 men swarmed over the new Kettering barn Wednesday to nearly complete the rebuilding of the barn which was burned to the ground on July 30

Farmers and agri businessmen kept coming and going, squeezing in as much time as possible from their own pressing chores

One man noted he really couldn't spare the time, but "I'd want them to do the same thing for me if something like that happened to me," he said

During the past week, a contractor had installed the foundation and all the materials were ready for an early start Wednesday

The workmen began arriving at about 8 a m, as soon as possible after completing chores And it wasn't long before the above ground wood structure of the barn began to take shape. Most of the woodwork was completed by noon, along with the shingling of the milk parlor

Mr and Mrs Henry Kettering, who farm the land owned by the Neffsville Brethren Home, were hoping the milking equipment would arrive in time for beginning operation October 1

Clarence Rosenberger, pastor of the East Petersburg Church of the Brethren which the Ketterings attend, was among those who helped organize the barn raising, but he gave most of the credit to the Brethren Home trustees

Paul Neff, a trustee, said the Ketterings have been tenants on the farm on Airport Road near Lancaster Airport for about 10 years. It was because they have been "fine tenants" that the decision was made to rebuild, he said.

The Ketterings have some dry cows and heifers on another farm on Colebrook Road, Manheim RD1

But their herd of 45 Holstein cows is being housed until the new barn is ready for operation by the Black & White Holstein Farm, Lancaster. "If it hadn't been for the Myers', we would have probably had to sell the cows," Kettering said.

But while the Brethren Church was actively involved in the barn raising, Pastor Rosenberger noted the active participation of many members of other denominations, including Amish, Mennonites and Methodists

Mr. and Mrs. Henry Kettering were happy and grateful Wednesday as their new barn went up rapidly. They're hoping for an October 1 completion, so they can move the cows in and resume the farm life that was disrupted by the barn fire July 30.

GRANGE NEWS

Richard Holloway was re-elected Master of Fulton Grange 66 at a meeting September 14.

Other officers elected for a one year term were Junior Matron, Mrs Jacob Fantom; Overseer, David Wissler, Lecturer, Mrs Stanley Stauffer Jr.; Steward, David Knight, Assistant Steward, Lloyd Welk, Chaplain, Alfred Overly, Treasurer, R Clan Murphy Secretary, Mrs. Charles McSparran, Gatekeeper, Earl Smoker, Ceres, Mrs Ira Welk Pomona Miss Sylvia Shirk, Flora, Miss Joyce Galbreath, Lady Assistant Steward, Miss Donna Welk, Pianist, Miss Mary Lou Wesley, Librarian, Mrs Richard Hanks Purchasing Agent C G McSparran, Flower committee Mrs Anna Armstrong and Mrs Mary Giffing; Hospitalization Secretary, Mrs. Robert B McSparran Scout Representative, William Shuler.

Elected for three year terms on the executive committee were member, J Robert Reed; finance committee member, Clifford W Holloway Jr; and trustees, Charles Ambler and Charles Reath

The Grange went on record opposing a bill in the state legislature which would reduce the number of representatives and senators in the Legislature.

They also were in opposition to a bill in the legislature prohibiting the use of polyphosphates in detergents because farmers are required to use them to cleanse milking equipment

The members went on record to ask our representatives in Congress to try to get a bill out of committee which would finance any person going through college to be a general medical practitioner

Fulton Grange provided a $25 savings bond for the third place winner of the Harvest Queen contest at Southern Lancaster County Community Fair Wednesday night, had a men's and a ladies' team in the Tug-of War contest Thursday night and entered a float in the parade Friday night.

Mr and Mrs Norman Wood were elected alternate delegates to the State Grange convention at Meadville Oct 26-29 A letter from a member, Miss Judith Longenecker, who is IFYE delegate to England and Wales was read A report on telephone service by the Commonwealth Telephone Company was given by Mrs Charles McSparran.

Norman Wood Mrs Harold Alexander and Mrs Stanley Stauffer Jr had entries in the photo contest which will be judged and winners sent to the State Grange contest Mrs. Stauffer conducted games
